

COLLEGE AND CAREER READINESS PROGRAMS

COLLEGE GUIDANCE DEPARTMENT

CAREER PATHWAY PRESENTATIONS

Gentlemen,

On Tuesday, **November 12th**, during **Enrichment Period** a professional from the **Federal Aviation Administration (FAA)** as well as the Assistant Director of Admissions from **Embry Riddle Aeronautical University** will be on campus in the Study Commons to speak on the importance of Aviation & Aerospace in our world today.

With excellent employment opportunities expecting to continue through the next decade, our invited speakers – Mr. John Kayes, (FAA) and Ms. Edyn Weber (Embry Riddle Aeronautical University) will provide an overview of the many careers to explore and will advise on what you should consider majoring in order to enter this vital field.

Aeronautical Science | **Engineering Physics** | **Aerospace & Occupational Safety** | **Forensic Psychology**
Cyber Intelligence and Security | **Simulation Science, Games and Animation**

STUDENT REGISTRATION IS REQUIRED

- To register from “MyPrep” go to “NavianceStudent”
- Click on “What’s New” and register for “College Visits”
- Click on “Career Pathway Presentation: Careers in Aviation/Aeronautical Professions”
- Register

The FAA is on the leading edge of a new frontier in commercial space transportation, building the next generation (NextGen) of satellite-based navigation systems, and fostering the safe integration of unmanned aerial systems into our airspace. We can only dream of what the next 50 years of American ingenuity will look like, but FAA employees will be working to ensure that the United States continues to lead the world in aerospace safety, innovation and advancements that continue to push the limits of science and technology. The FAA is an operating administration within the Department of Transportation (DOT) and a proud partner in the DOT mission to serve the United States by ensuring a fast, safe, efficient, accessible and convenient transportation system that meets our vital national interests and enhances the quality of life of the American people, today and into the future. Specifically, the FAA mission is to provide the safest, most efficient aerospace system in the world.

Barnstormer pilot John Paul Riddle and entrepreneur T. Higbee Embry founded the **Embry-Riddle** Company, the university’s forerunner, in December 1925. After a merger with an air services group in 1929, the Embry-Riddle Company briefly ceased being an independent enterprise. Ten years later, the Embry-Riddle School of Aviation was reborn and quickly expanded to meet the need for pilots in World War II. Based in Miami, Florida, and operating at various airfields around South Florida, Embry-Riddle trained 25,000 British and American pilots and mechanics. In 1965, Embry-Riddle relocated to Daytona Beach, Florida, establishing a residential campus adjacent to the city airport. The year 1970, Embry-Riddle achieved university status and began opening education centers at military bases under the umbrella of the division now known as the Worldwide Campus. Embry-Riddle established another residential campus, in
